

Jamtastic Equipment

Jamtastic are fully self contained providing a reliable, professional PA and lighting system for all occasions - both aesthetically pleasing and with crystal clear audibility. Never obtrusive, the sound and light rig used by Jamtastic is completely adaptable - equally at home in the ballroom at The Dorchester Hotel, London or a wedding marquee in a back garden. Sound levels are always monitored to be a perfect balance between a full live sound and respect for where people might want to be able to chat whilst listening and enjoying the music.

The equipment comprises:

audio: 24 channel Mackie Desk; Alesis microverb 4 digital processor; Behringer digital feedback eliminator; CD Player (for dinner or break music); 1k Monitor Amp (with 3 x Electro-Voice monitors); 3k Studiomaster powering 2 x 18" Electro-Voice bass subwoofers & 2 x Electro-Voice Sx300 full range speakers

lighting: 8 x controlled stage par cans

stage requirements: Staging preferably 6m (19'8") x 3m (9'10") 2 x (separate) 13 amp electrical sockets

All Jamtastic equipment has been PAT tested (portable appliance tested) and Jamtastic have £10 million public liability cover.

Cost and Availability

Jamtastic price themselves sensibly and competitively to adapt to every engagement's requirements. Quotes are based on a standard fee for each band size plus any additional charges for supplementary travel (engagements in the Central South, Home Counties and London incur no added travel charges), engagement times (additional charges apply for setting up prior to 6pm and playing beyond midnight) and peak season bookings (e.g. weekends in December, around Christmas and New Year's Eve).

As one of the busiest professional bands in the country - currently taking bookings for 2006 and beyond - it is wise to enquire early about availability. Nevertheless, there are still opportunities for bookings until then and beyond. For further information on specific quotes and availability [click here](#).

*Please note that if you have received Jamtastic's details through a booking agent, any booking details must be made through that agency and not directly with Jamtastic.
